

Allergen hygiene dishcloth

A purple dishcloth designed for use in allergen-free areas and made from recycled textile.

The purple hygiene dishcloth is designed for cleaning in allergen-free food preparation areas to prevent the cross contamination of allergic or diet-related ingredients.

Made in the UK from recycled shredded cloth, this means you are diverting textile waste from landfill and giving it another use. With a high cotton content, the dishcloth is durable, reusable and machine washable.

The dishcloth is also available in other colours and weights.
