Duo Face Microfibre Flat Mop

Wash and dry all with the same mop.

The Duo Face Flat Mop is an innovative, reversible microfibre flat mop system which uses double-faced mops to improve the effectiveness of floor cleaning.

Featuring a reversible mop frame with a unique locking system, along with a choice of three microfibre mop heads, you can simply wash, turn and dry all with the same mop as they are made with a special waterproof barrier that separates the two cleaning sides of the mop. Or, by using the two sides of the same flat mop, you can clean double the area.

The design of the frame avoids touching the mop with your hands thanks to its foot-operated pedal, while the central joint distributes the pressure uniformly onto the whole surface of the mop holder.

Key features & benefits

Microfibre cleaning

No chemicals required

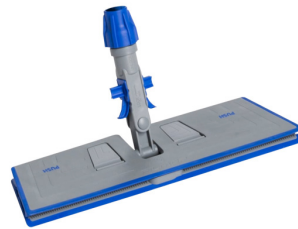

Innovation

Time saving

- Reversible microfibre flat mop system
- Wash and dry or clean twice the area with the same mop
- Unique hand-free design prevents touching the flat mop
- Fix the mop to the frame with two simple clicks

Code	Product	Colours	Size	Case Qty
101400	Frame		40cm	5
100690	Wash Scrub Mop		40cm	10
100686	Wash Safe Mop		40cm	10
100689	Dust Mop		40cm	10

How to use

1. Press 'push' to open the mop frame and insert the flat mop.
2. Lock the frame by pressing on the pedal.
3. Keep the frame in a vertical position without lifting the mop off the ground and drop the holder on the other side.
4. Start cleaning.
5. To switch sides, simply flick the holder over.
