KGS Flexis[®] Floor Pads

KGS Flexis® Floor Pads – diamond cleaning made easy!

KGS Flexis pads are designed to be the ultimate in daily cleaning and polishing of virtually any hard floor without chemicals. Made with Ferrizon®+ microcrystal technology, they produce cleaner and shinier floors in less time.

High performance

No chemicals required

Shine

Environmentally friendly

Flexi pads are available in five grades of coarse, medium, fine, very fine and ultra-fine.

- Thicker and stronger 20mm pads.
- Open weave provides self-cleaning without chemicals – only use water.
- Reduces cleaning times.
- Proven long lasting results and shinier floors.

How to use for daily cleaning

- Designed to be used with rotary floor machines and scrubber dryers, and speeds of between 200 and 800rpm and weights between 20 and 80kgs. For best results, please use a drive board.
- The pads can be used on terrazzo marble, granite, concrete, ceramic tiles, vinyl, plastic, linoleum, epoxy and acrylic floors – just match the pad to the floor.
- Remove dirt and dust using the coarse pad.
- Test in an out of the way area before beginning the full job and in an area that can be easily controlled.
- Flexis pads do not require heavy duty chemicals to work.
- Beware of sharp protrusions in the floor (i.e. metal strip or sharp lippage).
- Make sure you fit the pad colour side down.
- Use flat Velcro style drive boards to maximize floor contact. This delivers a more even floor finish.
- For daily cleaning we recommend the green pad, one pass and wet.
- Wash pads daily for best performance and to extend life of the pads.

- Flexis pads do not require chemicals, just use water.

Deep cleaning sequence

For maximum deep cleaning we recommend the four step process of Flexis red, blue, yellow and green in sequence, each with five passes and using water.

Top tip

For best results, use a flat Velcro style drive board. A brush type drive board which does not offer flat coverage can result in uneven pad wear.

For rough, greasy or very dirty surfaces, or as a process starter and occasional use.

For high traffic floors, occasional use for deep cleaning and daily for light gloss.

For floor maintenance and daily for medium gloss.

for the daily cleaning of all floors to a high gloss.

For daily use, it will maintain and improve the deep polish shine.
