**NEW**  
**Easy Wash flat mop kit**

# Cleaning becomes easy with the new Easy Wash flat mop kit from Robert Scott.

Easy Wash is a compact microfibre flat mop system, which is a faster and more versatile way to clean small to medium areas than socket mops, including quick response cleaning and difficult areas such as staircases, skirting and behind pipes.

The abrasive microfibre mop cleans without chemicals and, as you use less water than traditional mops, the floors dryer faster too. The touch-free frame reduces the risk of cross-contamination, while the micro flaps prevents accidental release during use.

The ergonomically designed 15 litre bucket features a wide opening for easy filling, compact wringer, rear handle that helps emptying, and integrated hook that attaches the mop handle to the bucket.

## Key features & benefits

Quick response

No chemicals required

Lightweight

Touch-free hygiene

- Cleans quicker than traditional mops
- Microfibre effective cleaning
- Floors dryer quicker
- Cleans without chemicals
- Lightweight and easy to use

## What's in the kit

The kit includes a touch-free mop frame, microfibre pad, and 15 litre bucket with wringer.

## How it's used

1. Fix the mop to the mop holder and foot press the central button to unlock the frame.
2. Soak the mop in the bucket, wring out, and lock the frame before use. Then simply clean the floor and repeat until finished.
3. Then simply clean the floor and repeat until finished.
