

Exel® Multipurpose Trolley

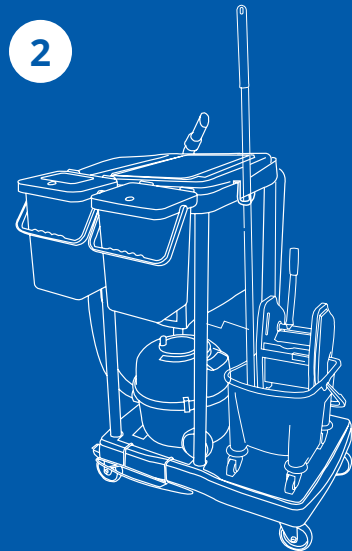

Kit recommendations - mopping systems

With the Exel® Multipurpose Trolley's clever design and innovative rails, holders and clips, it can accommodate a wide range of products for different cleaning methods. This includes Kentucky mopping for larger floor areas, to bucket-free microfibre flat mopping for quick response and spot cleaning. All, of course, while also being able to carry a tub vacuum along with plenty of other accessories. There's so many options that we thought it would be useful to show a few examples of different cleaning kits.
