Barista cloth

A heat resistant catering cloth designed for cleaning hot drink machines.

The Barista cloth is a heat resistant, food safe, antibacterial cloth. Designed with the Barista industry in mind, it can be used on steam wands and other heated coffee machine components, while offering protection to the user.

It is suitable for any surface type, and the antibacterial treatment inhibits the growth of germs and odours on the cloth; which is made from 100% biodegradable viscose.

The cloth has been designed with the needs of baristas in mind and has been externally certified against BS EN ISO 12127-1 2015 and approved to be heat resistant up to 250°C.

Key features & benefits
