

Quick response trolley bucket & wringer

A sturdy, stable trolley designed for use with either socket, Kentucky, microfibre or disposable microfibre mopping.

The quick response trolley is small, compact and suitable for transporting a mop and bucket to the cleaning site quickly and easily.

It's made of one plastic frame with 80mm wheels, and is available in four mopping options, with a variety of buckets and accessories.

The trolley includes a bucket and wringer and a clip to hold the mop whilst moving. It comes with two bucket holders, a roller clip to hold a mop, two hooks to hold equipment, and a rear holder for refuse sacks and a shelf at the back to hold equipment. Buckets are sold separately and are colour coded.

Key features & benefits

Quick response

Ergonomic

General cleaning

Colour coded

- Ideal for quick response cleaning where a mop and bucket is required.
- Helps reduce strain and the lifting of heavy buckets of water.
- Can be used for general cleaning, and can accommodate other cleaning products such as cloths, dustpan and brushed, rubbish collection, etc.
- Colour coded bucket and wringer for easy hygiene segregation.
